

JOYFUL LIVING SERIES *Level 1 & 2*

By Karyn Lynn Grant, LMT, Vibrational Attunement Therapist

*The Art of Compassionate Nurturing Begins With Self...
The Heart of Joyful Living... Ripples Out to Others.*

About the Author

For over a decade, Karyn Grant, Joy Coach, Singer, Songwriter, LMT, Author, Speaker, Compassionate Intuitive & Vibrational Attunement Massage Therapist, has quietly and serenely performed her mission since 2001. Her bona fide “Joy Coaching® System” mentors the heart, mind, body and spirit with music, massage, meditation and aromatherapy (a holistic approach), releasing grief and bringing comfort to thousands in one-on-one sessions. Considered the Florence Nightingale of her “Healing Hearts with Healing Arts” craft, Karyn Grant further ministers to audiences on stage, as a guest speaker, teaching classes and workshops.

Karyn, a Coronado, California native refers to her method as “The Healer’s Touch,” which combines special essential oil blends she has personally created for various needs, combined with her life’s work of writing and singing over 1000 original Christ-Centered songs, lullabies, musical meditations and instrumentals. Karyn’s compassionate lyrics inspire and uplift the human heart and mind.

“As a young girl, I went to church with my father in Atsugi, Japan, where I witnessed young U.S. Servicemen, in 1971, bearing witness of God’s love for them. Many of these young men were sitting in wheel chairs, having suffered amputations, burns and other physical and emotional losses. As an eleven-year-old girl, my heart was deeply touched. I knew I wanted to do something to bring comfort, peace and happiness to these wounded soldiers and to their mourning mothers. Helping souls release their grief isn’t for everyone. ...But, I wanted to minister to the broken-hearted...”

There are no university courses for “How to Mend A Broken Heart”. So, I prayed and asked God to teach me how to mentor and mend them. By the age of fifteen, I was teaching myself to play the guitar; writing poetry and lyrics to inspire people to look to God for comfort, peace and happiness. It never occurred to me to become a professional singer. I am no Celine Dion! I am just one ordinary woman who wants to lullaby God’s Children, young and old, with His extraordinary love!

I have been blessed to sing to prisoners in the State Penitentiary. I have lullabied the elderly. I have ministered to veterans with music and oils--to some who have lost faith in a merciful God. I have been sweetly received by audiences of all faiths. One self-proclaimed Atheist said to me after a session, “I don’t believe in God; but I know I felt something wonderful! I believe every Christian man and woman needs your gift of song and scent!”

“The Healer’s Touch Method™” is God’s Gift to me. When I was broken hearted, He whispered to me that He had a special work for me to do. I believe that this is it. He just keeps on turning my sorrows into song!” So, whether you are in need of mending your broken heart, or could just simply use the time to feel refreshed, relaxed and rejuvenated, there is a Joy Coaching® session on Karyn’s Vibrational Attunement Massage Table tailored just for you! A few things that may surprise you about Karyn are...She is married to Del Turley, a native Arizonan. She is also the mother of a beautiful blended family of 13 children (some in their mid-30’s), and 48 grandchildren!

JOYFUL LIVING

The Joyful Living Series™ by Karyn Lynn Grant, LMT, VAMT, Vibrational Attunement Massage Therapist offers a monthly course in serenity; the path in discovering your very own talent for becoming a soulful nurturer.

With a style of her own, Karyn Lynn Grant, LMT, offers you a solacing experience in obtaining deeper *"Rest & Relaxation"* via the five senses.

This method, at its finest, teaches the art of accessing the gifts offered by the physical senses.

When accessed, we begin awakening the divine senses that may have been left lying dormant in our subconscious minds, therefore, having not been fully awakened by the healing art of *Joyful Nurturing*.

In Level One, we begin "Awakening Joy" by focusing on our very own heart, mind, body and spirit through the loving art of developing a faith-filled daily ritual of compassionate self-care.

"THIS METHOD. AT ITS FINEST TEACHES THE ART OF ACCESSING THE GIFTS OFFERED BY THE PHYSICAL SENSES. "

In "Joyful Nurturing-Level 1", each student is offered an opportunity to begin the path of self-healing by learning to gently and deeply focus on cherishing themselves. (An empty well has no refreshment to offer.)

Karyn believes that in order to continue "Creating Joy", it must be through a layering process of repeating those daily rituals that can bring about a deepening sense of joy in our daily lives. Through *"Musical & Aromatherapy Duets", Guided Visualizations, Meditative Music, Compassionate Therapeutic Touch* we can achieve joy.

In Level One, we also learn that it is imperative that we make a daily divine appointment each day to nurture ourselves; by intuitively assessing our personal needs and ministering to them. By reconnecting to our innate sense of childlike faith with "Musical & Aromatherapy Duets" we begin "Processing Joy".

"WE MUST NOT LEAVE THE TASK OF "EXPLORING JOY!" UNDONE IN OUR STEWARDSHIPS FOR SELF AND FAMILY. "

"IF WE DO NOT NURTURE OUR VERY OWN HEARTS, MINDS, BODIES AND SPIRITS, WHO WILL?"

Discovering Joy" Level Two of the "Joyful Living Series" continues the wonderful adventure along the path by nurturing those we love. We continue along the path of creativity by further developing our own innate gift and unique style of nurturing our loved ones in our very own homes with the addition of creating "Blessings & Blends" that solace and soothe the soul from the hidden wounds of the past and present.

By "*Nurturing Your Own Heart, Home & Family*" through this loving method, it is Karyn's desired intention that you will find that the gift that keeps on giving is within your power.

If we do not nurture our very own hearts, minds, bodies and spirits, who will? If we do not practice the art of nurturing and cherishing our very own loved ones; i.e. our children, spouse and family members, who will?

We must not leave the task of "Exploring Joy!" undone in our stewardships for self and family.

As we utilize the tools in this month-long program, we begin "Reclaiming Joy!" (We may be the only one in our family lineages who will initiate the gift of reclaiming what may or may not have been naturally passed down to you by the generations that proceeded you.)

"Becoming Joyful" is the connection we make by believing that we truly are a "Nurturer by Nature". We can share our nurturing hearts in our very own homes via the physical senses with song, scent, sight, taste and compassionate therapeutic touch. "Renewing Joy" on a daily basis with song & scent, deep relaxation, guided imagery, affirmations and a sense of intuition becomes an integral part of choosing the healing arts as a meditative tradition in our daily lives.

"Lasting Joy!" becomes the on-going result! The ultimate gift of an increased sense of love, joy and peace will not only deepen our personal love for life; but can assist us in the journey of building bridges of connectivity first and foremost to our ourselves and secondly; to those we are inspired to serve and minister to during the course of our lives.

As we consecrate our daily lives to providing the gift of nurturing to ourselves and others, we spread the message of “Living Joyfully”.

As we continue “Fashioning Joy” in our personal lives and in the lives of our loved ones, we become a safe haven for the hearts, minds, bodies and spirits of our loved ones by spreading hope and happiness in an age of doubt, fear, hopelessness and uncertainty.

By committing to “Sharing Joy” we can bless the world by leaving a lasting legacy of “Experiencing Joy” for generations to come as we pass this gift on to our children and children’s children.

As we consecrate our daily lives to providing the gift of nurturing to ourselves and others, we spread the message of “Living Joyfully”. Thus, by combining Level 1 & Level 2, we not only help ourselves, but we assist those we love in learning how to interpret what the meaning of “Joy” is to each individual we minister to.

The end result of this “Joyful Living Series” is to introduce Joy Coaching Level 3. In “Advanced Joy Coaching” we learn how “Continuing Joy” can begin the ripple effect of blessing our communities as well as the world in which we live.

*WITH LOVE,
KARYN LYNN GRANT, LMT*
